## THE WILD ROBOT PROTECTS

**AUTHOR(S):**

*Peter Brown*

**PUBLISHING HOUSE:**

*Little, Brown Books for Young Readers*

**9 years +**

In the idyllic life of Roz, the wild robot, and the island's animals, things take a drastic turn when toxic waters envelop the island, compelling the animals to struggle for scarce resources on land. As Roz brings order and assurance to the animals, she encounters extraordinary geographic features and wondrous creatures and witnesses the aftermath of the toxic tides. Can Roz rescue the ocean and her beloved island? This captivating installment of the Wild Robot series leads readers on a new exploration across the sea and into the chilly northern waters, where Roz may face a pivotal decision.

## ARTIFICIAL INTELLIGENCE & ME

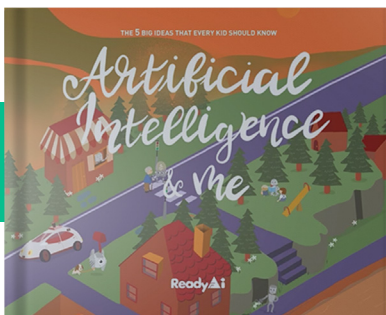

**AUTHOR(S):**

*Readyai*

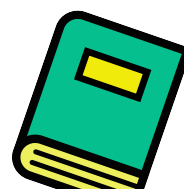

**PUBLISHING HOUSE:**

*Readyai*

**5 years +**

The book combines narratives with AI activities to help your child grasp advanced AI concepts using engaging examples. Through a story set in a zoo, your child will follow the steps of a decision tree—a machine learning technique that underpins various apps used in everyday life—to determine the new animal the zoo plans to introduce.
