Surprise Coupons for Parents!

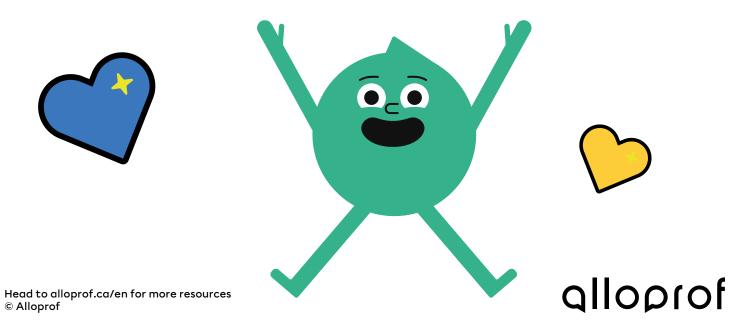

To brighten up your parent's day on a special occasion like their birthday, Valentine's Day, Mother's Day, or Father's Day—or just to give them a special surprise—cut out these activity coupons, fold them in half, and put them in a jar or box. It's even better if you decorate the container! Then, you get to decide how your parent will draw their surprise coupons.

Here are some examples:

- Tell your parent to draw up to a certain number of coupons (you decide how many) on their special day.
- Ask your parent to roll a die. The number they roll equals the number of coupons they can draw per day.
- Let your parent draw one coupon at a time (for example, one a week) until the jar is empty.

You can use the blank coupons to write your own ideas for activities to do together or favours you can do for your parent!
