Only a few hours left until midnight! Overwhelmed, Santa needs help. The goal of the game is to be the first player to deliver all their gifts and reach the final square. Players take turns rolling the dice and moving their game piece forward the number of spaces rolled. Along the way, you'll come across some special spaces:

Materials:

- Game board
- Two six-sided dice
- Game pieces for each player

The spaces:

Flo spaces: What luck! Move forward again by the same number of spaces.

Christmas tree spaces: You get distracted while admiring the twinkling lights on the tree. Move back three squares.

Sleigh spaces: Move to the square at the front of the sleigh.

Gingerbread men spaces: Yum, a delicious cookie! Skip your next turn so you can enjoy it.

Chimney spaces: Oh no! You're stuck in the chimney. Stay put until you roll a double.

Christmas stockings spaces: You empty your stocking and find it contains a challenge: If you can sing the chorus of a Christmas song, you can move one square forward!

Elf spaces: You feel your feet being pulled down. Oh no, the elves have played a trick on you! Move to the square directly below you.

Christmas presents spaces: In the spirit of giving, give one of your fellow players a compliment.

Christmas ornaments spaces: You drop a Christmas ornament, and it shatters on the floor. To make amends, swap places with the closest player behind you. If you're in last place, stay where you are.

Christmas wreaths spaces: You're decorating for the holidays and want to hang up your wreath, but it falls apart as you take it out of the box. Move back one square so you can find a replacement.

Candy canes spaces: The candy cane gives you a boost of energy! You get to roll again.
